General Purpose Permit for Dewatering into the City of Daytona Beach Municipal Separate Storm Sewer System (MS4)

Apply for permits and remit fees either in person through the City of Daytona Beach Permits and Licensing Department or online through crw.codb.us/etrakit3. For questions, please contact the NPDES Coordinator at (386) 671-8884.

County, State, and Federal agencies are exempt from General Purpose Permits for Dewatering. Permits are to be displayed at the local corporate office of the entity performing routine dewatering. If City forces discover dewatering activities without the applicable permits, operators may be subject to denial of future dewatering activities into the City's MS4 and potential enforcement actions.
